#### Websites

41. *iSquares* (research program website) (<[www.iSquares.info](http://www.iSquares.info)>)  
The iSquare website, launched in February 2014, presents arts-informed, visual research into the concept of information using the draw-and-write technique. It provides an overview of the iSquare research program, the corpus of 309 iSquares (a visual and textual data set), the *iSquare Research Protocol* and more.
42. *The Serious Leisure Perspective* (research program website) (<[www.seriousleisure.net](http://www.seriousleisure.net)>)  
The Serious Leisure Perspective (SLP) is a website about leisure for academics, students, and other researchers. It includes background information on the SLP (a theoretical framework of leisure), a current bibliography, full text digital library, list of associated scholars and more. The website was created and is maintained by Robert A. Stebbins and Jenna Hartel. *The Serious Leisure Perspective* has received 40,000 visits since its founding in 2006, and it averages 90 visitors per day.
43. *Jenna Hartel* (personal academic website) (<[www.jennahartel.com](http://www.jennahartel.com)>)  
My personal academic website surveys my teaching and research and includes the blog, *Information Behavior(u)r*. The website has received 17,520 visits since its creation in 2004, and it averages 45 visitors per day.

### NARRATIVE BIO

---

I am a theorist, methodologist, and historian of Library and Information Science. My work is organized around the question: *What is the nature of information in the pleasures of life?* I am investigating this matter through the concatenated study of *serious leisure* realms, which are crossroads of information and enjoyment. My empirical research explores the use and structure of leisure information on personal and social levels. My dissertation is a scientific ethnography of information phenomena in the hobby of gourmet cooking. I practice an interdisciplinary and international approach and maintain close ties with leisure scientists and northern European information scholars. I hope to generate basic knowledge about information in the pleasures of life; to challenge existing ideas that have emerged from academic problem scenarios; to establish positive models of organic, flourishing information environments; to enliven classrooms with upbeat topics; and to enrich the information experience for leisure enthusiasts.
